Please select the category that best reflects your product's sweetener content. Seltzers and sparkling waters typically contain little to no sweetener, whereas products with higher sweetener levels, like those comparable to soda (around 39 grams sugar per can), may be better suited for the RTD or Soda category. Choosing the most accurate category ensures fair evaluation for your entry.

PERSONALIZED FEEDBACK ON YOUR PRODUCTS FROM OUR EXPERT JUDGES

Our optional *Insights* program gives you access to the expertise of our judges who understand what it takes to create exceptional adult beverages.

Presented in a customized and informative report, *Insights* is designed to complement our regular competition. While a medal's primary role is to communicate the quality of your product, the report you'll receive from *Insights* provides you with additional feedback and observations that can give you the edge you seek in a highly competitive market.

Questions answered in the report can include topics such as:

- ❑ What could improve the product?
- ❑ What (if any) are the flaws in the product?
- ❑ What sets the product apart from the others of its kind?
- ❑ What target markets would the product appeal to, and how?

(Examples given are for illustrative purposes. Information will vary.)

Participation in the *Insights* program is available to all products entered in High Spirits Awards' regular tasting competition for an additional fee of \$375 per enrolled product.

For more information, [visit our website](#).
